W.C. Black and Sons, Inc. Launches New Website

CHARLOTTE, NORTH CAROLINA, 16 OCTOBER 2010 – W.C. Black and Sons, Inc., a leading provider of residential and commercial site work solutions, demolition services, hauling services, and junk removal operations, launched its latest redesigned website on 16 October 2010.

W.C. Black and Sons, Inc.'s new website emphasizes their capabilities, accomplishments, and extensive experience in Demolition, Land Clearing, Grading, and Excavating projects in both North and South Carolina. The new and improved website displays images of company owned and operated equipment with actual company employees on real jobsites performing real work. Site visitors can view services offered, discover company history, and contact the company for project estimates.

W.C. Black and Sons, Inc. did not want a cookie cutter website with stock imagery and flashy intros. They wanted a site that was simple and easy to navigate specifically designed to showcase their skills, extensive experience, and meticulous attention to detail. Company Vice President, Jason Black, emphasized the need to showcase the integrity of the business and the family oriented focus on quality W.C. Black and Sons, Inc. has provided to customers in the Carolinas for over 30 years. The new website is more visually attractive and contains more details than the previous version.

W.C. Black and Sons, Inc. plans to provide additional updates to its website in the future to enhance visitor experience, display more images and video, and increase the amount of used or underutilized equipment listed for sale.
